LINDEN AVENUE. Continued from page 1.

says, "were of the opinion that all the cobble gutters were not relaid but no specific facts and figures were presented upon which any recommendation could be made, and in view of the further fact that the total assessments for new gutters against property-owners is 926,17 the contractors was for only 880 yards. The difference in the town's favor suggests that this matter be not opened.

"In the matter of grading, the lown Engineer reported and the contractor bee been paid for 1,095 cubic yards in 1901, and a further item of 32 cubic yards for work east of Thomas street in the spring of 1902. The grading consisted of both cutting and firing, and it is conceded that the filling required was considerably in excess of the cuts. While the general work was in progress thus far all earth taken from cuts should have been used for filling and charged for but once, and consequently the amount charged for should represent filling.

"The objections of the property-owners," the report says, "to the assess. ment for the grading for this improvement are two-fold: First, because of the general impression that the amount charged for is in excess of the amount used; and second, because they contend that the entire cost of the grading should be assessed upon the property in front of which the grading was done. and not apportioned among all the properties included in the general improve-

"In the hope th .t some approximate figures could be obtained thereb , your committee requested Mr. Francisco to make such measurements as he could from surface indications of abutting property more than two years after the improvement had been completed, and his report is herewith submitted. He finds only 340 cubic yards appearing at the present time, but supplements his report with the statement that the only way in which the exact quantity of filling san be determined would be by cross sections taken before the filling was begun. No figures of any kind have been presented by any objectors, and it le not believed that muy are obtainable.

P.

"The Town Engineer appeared before e and produced his fieldtaken and made by him before the work began, a d further averred that from those measurements be had made his sross section calculations of the amount of filling required, and from these valoulations be had estermined the amount to be 1,095 cubic yarde, which he to satisfied is correct. Your committee to therefore bound by these figures, and ean make no recommendation to the sostrary.

"In the matter of the removal of nineteen trees and three lamp posts charged for by the contractor, your committee has made the fullest inquiry possible, but has no definite evidence that the number is not correct. Certain objectors have stated that they could not recall as many as nineteen trees removed, but the Town Eugineer and the contracter are sure that the number to correct. The work was done under the superviel n of the Sidewalk Committee then in obarge, and the bill has been duly certified and paid.

"Ail the measurements and figures jurnished by the Town Engineer are Sinding and final under the contract, so far as the contractor is concerned.

"Your committee therefore recommends that the report of the Board of Assessors in this matter be referred back to them, with a request that they make such revision and correction as may be proper, and alterations to conform to this report, to wit:

. 1. That the sum of \$1.25 be deducted from the assessment of Lichard T. Cadmus

"2. That the sum of \$6 be deducted from the assessment of William H. Swain.

"3. That the amounts deducted be borne by the town at large. " Dated February 15 1904.

" Respectfully submitted. " WM, DOUGLAS MOORE. " JAMES M. WALKER. " Sidewalk Committee."

Charles W. Powers had previously asked permission to speak on the Linden avenue case, and when the reading of the report was concluded Mr. Farrand moved that Mr. Powers be heard. Mr. Powers began by reminding the Counsilmen that at the time the Linden aveaue work was called completed and the assessment levied the property-owners made certain claims to the effect that the quantities of work charged for under several headings were in excess of what had been done, and Mr. Powers slaimed that Mr. Francisco's measurements fully established the contention of the property-owners. Mr. Powers submitted letters from property-owners other than Messrs. Cadmus and Swain. who claimed errors in the measurements of surbing, flagging and cobble gutters. Me objected to the report offered by Mr. Moore being referred back to the Board of Assessors with instructions that would limit it or restrict the work of the Board. Mr. Powers asserted that work that was not done should not be as-

specific recommendations, but commending only that the Board of Assessors levy the assessments with due justice to the property-owners and the interests of the town.

Mr. Walker maintained that the Sidewalk Committee's report in no way tied the hands of the Board of Assessors

Mr. Moore vigorously opposed Mr. Farrand's amendment, and deployed the fact that the great labor bestowed by the Sidewalk Committee to bring the case to a settlement did not meet with the aid and approval of other members of the Council.

Mr. Farrand defended his amendment. and it was adopted by a vote of three against two.

Mr. Spencer was working on building now being erected by Post & McCord, corner of Broadway and Duane street. He was on the eighth flor of the building and stepped on a plank that had snow on it. The plank sill along the beams from under bim, and be fell books, which he averred contained the the distance of two floors. He struck various elevations and measurements beavily against the trou girders in his fall, and his right arm was broken near the shoulder, and also the ankle of his left foot. He was taken to the Relief Hospital in Hudson street, and was brought home bere in a carriage Monday. He is now recovering from the effects of his fall.

"D. D. D.," the astonishingly effective new

Skin disease prescription

Eczema, Salt Rheum, Barbers' Itch. Ervsipelas-all eruptions, scaly direases and parasitic affections of the skin positively cleared away in a hurry. A clean, pleasant liquid (non-greasy) externally applied-sponged or sopped over the parts. Instantly stops all irritation. Soon clears out absolutely all affected conditions.

(Here is a case cleared away with two bottles.)

(Case of daughter of Mr. Mose Hartman, permanently cured of a bad skin disease after two bottles only of this D. D. D. prescription.)

We vouch for these facts.

They have been proven to us beyond the possibility of doubt.

W. W. KEYLER.

Some weeks ago the astonishing record of this prescription-proven to us by indisputsome weeks ago the astonishing record of this prescription—proven to us by indisputable evidence—induced us to give it our unqualified recommendation to the public. Since then D. D. has cared so many who obtained it from us that its record with us has been fully equal to its previous history. We have not seen a single instance of disappointment. It seems to do the work every time. In nine cases out of ten, manifestations on the skin are skin diseases—not blood diseases. Many purchasers formerly miserable, thinking they had had blood diseases have found it was merely a skin affection and have cleared it all according to the skin are should be a skin and have cleared it. a had blood disease, have found it was merely a skin affection and have cleared it all away

Among all the known reliable specific medical influences for different ailments we know of very few discoveries so certain in effect as this D. D. D. prescription in its quick conquest of skin diseases of all kinds.

A FEW CURES OF WELL-KNOWN PARTIES.

"I am glad to say that the bottle of medicine furnished by you in July last has been of great benefit to me. I am now free from the annoyance heretofore suffered from Eccerna on my ankles. I have also cured a friend of mine who had two or three spots on his face."
